

TO WHOM IT MAY CONCERN

Sofia, April 24, 2025

Dear Sir or Madam,

This is to certify that Samvar Shah, a student at National Public School, Indiranagar, Bengaluru, Karnataka, India, has been accepted at the **International Summer Research School in Mathematics and Informatics**. Samvar Shah proved out to be a valuable applicant to our program and we believe his participation at the summer school will be beneficiary for both parties.

The Twenty-Fifth Summer Research School (SRS'25) will be held from July 6th to July 26th, 2025, in Varna, Bulgaria. The school will be attended by 40 – 50 high school students from all over the world. All the participants will be housed at the Conference and Recreation Center of the Bulgarian Academy of Sciences in the city of Varna.

The Summer Research School is organized by the High School Student Institute of Mathematics and Informatics (<http://www.math.bas.bg/srs>) – a partnership of the Union of Bulgarian Mathematicians, the Institute of Mathematics and Informatics of the Bulgarian Academy of Sciences, the Eureka Foundation and the Sts. Cyril and Methodius Foundation. SRS is a summer research school for high achieving teenagers with pronounced interest in the fields of mathematics, computer science and ICT. The students will work with their scientific mentors and will focus on individual research topics.

The fee for the Summer Research School is EUR 1600 and covers all expenses related to the participation (accommodation, meals, tuition, social program). The fee does not cover travel expenses, out-of-pocket expenses, accommodation for extra nights, etc.

Yours sincerely,

A handwritten signature in blue ink, appearing to read "Emil Kolev".

Prof. Emil Kolev, D.Sc.
Director of HSSIMI and SRS
